FRONTEND DEVELOPER & SOFTWARE SPECIALIST

Frontend Focused | Skilled in React, Vue & Tailwind | Backend & Database Knowledge

Frontend-focused IT professional completing a Diploma in Application Development. Skilled in **React**, **Vue**, and **TailwindCSS**, with experience building responsive, interactive UI components. Knowledgeable in backend development and database management (**Java**, **Supabase**). Experienced in small projects, debugging across multiple environments, and component-based architecture.

WORK EXPERIENCE

Clicks – Garden Center, CPT 11/2024 - 01/2025

Retail Assistant (Christmas Flexi – Health & Pharmacy Section)

Provided front-line customer service and retail support in the Health & Pharmacy section during peak festive season, ensuring efficient operations and a positive shopping experience.

- Delivered accurate, detail-focused customer service in a high-volume retail environment.
- Monitored and managed stock data (pricing, expiry dates, shelf replenishment) with precision.
- Ensured smooth operations through problem-solving and clear communication with customers and team members.

Violet Poppy Trading – Epping, CPT 12/2022 - 01/2024

Warehouse Assistant

Played a key role in warehouse operations at a garment finishing and packaging facility serving major retail clients such as Truworths, Identity, and Foschini.

- Supervised day-to-day warehouse operations, including stock control, inventory management, and quality assurance
- Oversaw daily warehouse operations, including stock and inventory control.
- Managed receiving, sorting, and dispatch of garments for retail clients.
- Adjusted stock levels to maintain inventory accuracy and avoid shortages.
- Performed quality checks to meet client packaging standards.
